# What the keys of our success are...

The company came into existence out of a vision and conviction of helping people with foot problems, making foot care accessible to everyone, building expertise in the foot care market, and creating awareness of foot care.

This vision and conviction has turned Eduard Gerlach into a pioneer of modern foot care. Vision, experience and values have been passed on at Gerlach from generation to generation. This is how Eduard Gerlach GmbH has ensured the success of the family business – for 150 years by now.

The key brand, which is still an important component of the company logo, has been with Eduard Gerlach GmbH since the company was founded. It was a great honour for the company to obtain the permission of the town administration to use the keys from the coat of arms of Lübbecke for its own trademark. Even at that time it was applied to products made by Gerlach, thus confirming the high-quality of the products. On the other hand, it is an expression of the bond with the town of Lübbecke.

The company, its employees, the deliberately chosen distribution channel through the specialized trade as well as satisfied customers, who out of conviction buy and use the products of the company, are the keys to shared success.

# Our values

## **Innovation**

Gerlach sees itself as a source of inspiration for professional foot care and as a pioneer in the foot care market. The company was born out of an innovation – the foot cream. It should continue to grow in the future through innovations for new product ideas.

## **Quality**

At Gerlach, strict guidelines apply in the area of quality assurance. Diligent selection of raw materials, conscientiousness in the production of the products and in the testing of the finished goods ensure consistently high quality.

## **Loyalty to the specialist trade**

Through the deliberately chosen distribution channel through the specialized trade, Eduard Gerlach GmbH has built up trust for years and cultivates a loyal partnership. With its well-known brands, the company provides retailers with products that meet all the requirements of sophisticated care.

## **Customer focus**

With its products, the company has been working „For the well-being of the feet“ for 150 years and will continue to do everything in its power to keep feet healthy. Helping the customers with their foot problems to meet their needs and desires – this is essential for Gerlach. The brands Gerlasan and Gerlavit expand the product range with body care products.

## **Employee orientation**

Gerlach has a loyal workforce. Eduard Gerlach GmbH is the employer of people who feel connected to the company, identify with the company and the brand and live this way.

## **Tradition and family**

Eduard Gerlach GmbH has been committed to foot health for five generations. Knowledge that has been passed on in the family has accumulated in the company for generations. Thus, the company is able to keep growing. The family idea has played and still plays an important role in the company.

## **Closeness to nature**

In product development at Gerlach, emphasis is placed on natural ingredients and the use of essential oils. Gerlach stands for the leitmotif: Natural power for the well-being of the feet. The basis of many GEHWOL products is the best of nature. Purity and naturalness, effectiveness and durability play an important role here.

# The GEHWOL brand promise

GEHWOL – out of conviction

---

## **The GEHWOL brand – everything for the well-being of the feet since 1910**

Over the course of decades, Gerlach has become synonymous with foot care. Its brand, GEHWOL, was officially registered in 1910 and has stood for the well-being of the feet ever since that time. The versatile product range offers solutions for every foot problem.

## **The GEHWOL Fusskraft product line – exclusively for foot specialists**

The GEHWOL Fusskraft foot care brand was introduced to the market in 1961, with 80 years of experience and making use of the very latest findings. While it was advertised as a product to be used in and sold by practices back then, this brand now constitutes the exclusive product line for professional foot care, whose full product range meets the needs and ensures the well-being of patients' feet.

## **Loyalty to the expert trade – for expertise in treatment and advice**

As a partner with a long tradition, Eduard Gerlach GmbH has built up trust with the expert trade with its expertise in the business of foot care and high-quality products throughout the decades. This trust is reflected in the recommendation and sale of the products. By consciously choosing to sell our products via the expert trade and by competent advice provided by the extensive field service, we jointly show expertise in the business of foot care.

## **Product quality – for the shared image and customer satisfaction**

The GEHWOL brand has always stood for quality. Quality assurance at Gerlach has a three-stage quality control system, starting with ware receipt of all utilised raw materials and ending with finished wares. For GEHWOL products, we want to make sure that customers always receive flawless wares in consistently high quality. If it says GEHWOL, it has to contain GEHWOL.

## **Research and development – for successful advances in professional foot care**

Eduard Gerlach GmbH has the mission of further developing the professional foot care market. Gerlach loves feet and will do everything to keep them healthy. A competent team from various departments of the company develops ideas, and they don't just meet current market requirements. At Gerlach, we also seek out trends so that we can serve future markets. Even in the future, the company wants to be able to say: Feet that move a lot should always be nourished with GEHWOL.

# GEHWOL FUSSKRAFT Soft Feet – Feel-good products

---

The products of this series stand for care that feels good. The leave-on products contain deep-acting hyaluron. The recipes are refined with a variety of extracts, such as aloe vera, milk and honey or water lily. The products that make for such a pleasant break are exclusively available in the professional foot care sector.

RANGE SUMMARY

# GEHWOL – the pressure relief products

Gently cushioned: perfect protection against friction and pressure for stressed feet.  
This product series is made from especially skin-friendly, soft, highly elastic polymer gel and offers a solution for any foot problem.

## RANGE SUMMARY

Medical Device

### GEHWOL® Correction Ring G

For the relief of typical problems associated with hammertoes

Product benefits:

- soft polymer gel ring
- gently stretches, lowers and guides the toe in the normal position
- the affected toe joint is relieved and callus formation is reduced

Order No.	Package size	Packaging language
11 26 901	3 pads	GB/GR/NL/; I/F/D

Medical Device

### GEHWOL® Corn Protection Ring G

To relieve the pain in corns

Product benefits:

- supple, soft and protective polymer gel cushion
- it provides three-dimensional padding on and around the painful corn, providing relief from pressure

Order No.	Package size	Packaging language
11 26 921	3 pads small	GB/GR/NL
11 26 922	3 pads medium	GB/GR/NL

Medical Device

### GEHWOL® Toe Protection Ring G

For pressure problems between and on the toes

Product benefits:

- for pressure problems between and on the toes
- soft polymer gel ring
- for evenly relieving pressure distribution

Order No.	Package size	Packaging language
11 26 924	2 pads mini	GB/GR/NL/; I/F/D
11 26 925	2 pads small	GB/GR/NL/; I/F/D
11 26 926	2 pads medium	GB/GR/NL
11 26 927	2 pads large	GB/GR/NL

Medical Device

### GEHWOL® Toe Protection

For protection from pressure pain between and on the toes

Product benefits:

- exterior: seamless, highly elastic tissue
- interior: flexible polymer gel pad
- ensures evenly relieving pressure distribution between and on the toes

Order No.	Package size	Packaging language
11 26 802	2 pads small	GB/GR/NL; I/F/D
11 26 803	2 pads medium	GB/GR/NL; I/F/D
11 26 804	2 pads large	GB/GR/NL; I/F/D

Medical Device

### GEHWOL® Toe Cap G

For pressure problems between and on the toes

Product benefits:

- highly elastic polymer gel cap
- for evenly relieving pressure distribution
- suitable for problems with the perionychium and the tips of the toes

Order No.	Package size	Packaging language
11 26 934	2 pads mini	GB/GR/NL
11 26 903	2 pads small	GB/GR/NL; I/F/D
11 26 902	2 pads medium	GB/GR/NL; I/F/D

Medical Device

### GEHWOL® Toe Cap

For protection from pressure pain between and on the toes

Product benefits:

- exterior: seamless, highly elastic tissue
- interior: completely coated with flexible and skin-friendly polymer gel
- ensures evenly relieving pressure distribution between and on the toes

Order No.	Package size	Packaging language
11 26 805	1 pad	GB/GR/NL

## RANGE SUMMARY

Medical Device

### GEHWOL® Toe Separators G With pad deformities and for toe correction

#### Product benefits:

- skin-friendly polymer gel cushion
- supple and non-slip relief with corns between the toes
- corrects tight-fitting and overlapping toes
- protects against chafing, skin irritation and cornification

Order No.	Package size	Packaging language
11 26 912	3 pads small	GB/GR/NL

11 26 914	3 pads large	GB/GR/NL

Medical Device

### GEHWOL® Toe Divider G D With pad deformities and for toe correction

#### Product benefits:

- skin-friendly polymer gel cushion
- supple and non-slip relief with corns between the toes
- corrects tight-fitting and overlapping toes
- protects against chafing, skin irritation and cornification
- slim separating bars for better wearing comfort

Order No.	Package size	Packaging language
11 26 928	3 pads small	I/F/D
11 26 929	3 pads medium	GB/GR/NL; I/F/D
11 26 930	3 pads large	I/F/D

Medical Device

### GEHWOL® Toe Dividers For protection with tight-fitting shoes

#### Product benefits:

- skin-friendly small polymer gel plate
- supple and non-slip relief with corns between the toes
- corrects tight-fitting and overlapping toes
- protects against chafing, skin irritation and cornification

Order No.	Package size	Packaging language
11 26 809	3 pads small	GB/GR/NL; I/F/D
11 26 810	3 pads large	GB/GR/NL; I/F/D

## RANGE SUMMARY

Medical Device

GEHWOL® Bunion cushion with toe divider  
For pressure relief and distribution on the bunion

Product benefits:

- soft elastic polymer gel
- relieves burning bunions, painful corns and blisters
- prevents overlapping of the first and second toe
- the toes are aligned

Order No.	Package size	Packaging language
11 26 811	1 pad	D/INT

Medical Device

GEHWOL® Small toe pad cushion G  
Brings relief from pressure on bunions

Product benefits:

- soft highly elastic cushion
- makes it easier to walk with painful small toe pads
- it provides protection and comfort

Order No.	Package size	Packaging language
11 26 935	1 pad	GB/GR/NL; I/F/D

Medical Device

GEHWOL® Bunion Cushion G  
Brings relief from pressure on bunions

Product benefits:

- soft highly elastic cushion
- makes it easier to walk with painful bunions
- it provides protection and comfort

Order No.	Package size	Packaging language
11 26 900	1 pad	GB/GR/NL; I/F/D

RANGE SUMMARY

Medical Device

GEHWOL® Bunion cushion with elastic bandage  
For pressure relief and distribution on the bunion

Product benefits:

- supple polymer gel pad
- adaptable elastic bandage
- fixation on the large toe ensures perfect positioning on the foot and prevents slippage
- due to the special shape suitable for every shoe
- wearable by simply turning right and left

Order No.	Package size	Packaging language
11 26 816	1 pad	D/INT

Medical Device

GEHWOL® Metatarsal and bunion cushion with elastic bandage  
For pressure pain in the area of the forefoot and bunion

Product benefits:

- elastic polymer gel pad
- adaptable elastic bandage
- relieves pressure pain and ensures pressure distribution
- fixation on the large toe ensures perfect positioning on the foot and prevents slippage
- wearable by simply turning right and left

Order No.	Package size	Packaging language
11 26 817	1 pad medium	D/INT
11 26 818	1 pad large	D/INT

Medical Device

GEHWOL® Metatarsal cushion G  
For the protection of the forefoot and midfoot in the pad area

Product benefits:

- skin-friendly, soft, highly elastic polymer gel cushion
- with a thicker padding in the centre area
- protects the forefoot and midfoot in the pad area from friction and pressure

Order No.	Package size	Packaging language
11 26 904	1 pair small	GB/GR/NL; I/F/D
11 26 933	1 pair large	GB/GR/NL; I/F/D

Medical Device

### GEHWOL® Metatarsal Cushion

For the protection of the forefoot and midfoot in the pad area

Product benefits:

- particularly comfortable polymer gel, coated on both sides with elastic tissue
- only 2 mm thick, fits comfortably in any shoe
- protects the forefoot and midfoot in the pad area from friction and pressure

Order No.	Package size	Packaging language
11 26 801	1 pad	GB/GR/NL

Medical Device

### GEHWOL® Metatarsal cushion with elastic bandage

To relieve pressure pain in the forefoot

Product benefits:

- supple polymer gel pad
- adaptable elastic bandage
- relieves and distributes the pressure in the area of the forefoot
- due to the special shape suitable for every shoe
- wearable by simply turning right and left

Order No.	Package size	Packaging language
11 26 814	1 pad medium	D/INT
11 26 815	1 pad large	D/INT

Medical Device

### GEHWOL® Metatarsal cushion with bandage

To relieve pressure pain in the forefoot, especially while exercising

Product benefits:

- comfortable polymer gel pad
- elastic bandage
- padding in the area of the forefoot
- immediate pressure relief and distribution
- perfect fixation without affecting the blood circulation

Order No.	Package size	Packaging language
11 26 812	1 pad right medium	D/INT
11 26 813	1 pad right large	D/INT
112 681 201	1 pad left medium	D/INT
112 681 301	1 pad left large	D/INT

Medical Device

**GEHWOL® Heel cushion G**  
**Brings relief from pressure on heel spur**

Product benefits:

- highly elastic, particularly soft damping polymer gel heel cushion
- gel waves absorb shocks exactly in the affected areas of the foot
- avoids extreme stress when walking and standing
- relieves knees, talocalcanean and hip joints as well as spinal column

Order No.	Package size	Packaging language
11 26 931	1 pair small	GB/GR/NL; I/F/D
11 26 932	1 pair medium	GB/GR/NL; I/F/D
11 26 936	1 pair large	GB/GR/NL; I/F/D

Medical Device

**GEHWOL® Cushion for hammer toe G**  
**Brings relief from pressure on hammer toes**

Product benefits:

- comfortable polymer gel cushion
- with broad, elastic loop to keep it firmly in place without constricting
- prevents skin irritation and corns on the ends of the toes
- increases the load capacity of the feet noticeably

Order No.	Package size	Packaging language
11 26 915	1 pad right large	GB/GR/NL; I/F/D
11 26 916	1 pad left large	GB/GR/NL; I/F/D
10 269 17	1 pad right small	D
10 269 18	1 pad left small	D

Medical Device

**GEHWOL® Blister plaster with hydrocolloid system**  
**For blisters and chafed skin**

Product benefits:

- hydrocolloid system draws the fluid out of the blister and combines with it into an actively breathing, gel-like protective cushion.
- gel cushion acts like a moist wound dressing
- covers the blister and reduces pressure
- thanks to its all-round fixation, it keeps the wound clean and germ-free
- oval shape for the heels

Order No.	Package size	Packaging language
11 27 621	6 pads.	D/INT

Medical Device

GEHWOL® Blister plaster with hydrocolloid system  
For blisters and chafed skin

Product benefits:

- hydrocolloid system draws the fluid out of the blister and combines with it into an actively breathing, gel-like protective cushion
- gel cushion acts like a moist wound dressing
- covers the blister and reduces pressure
- thanks to its all-round fixation, it keeps the wound clean and germ-free
- in three sizes: oval for heels, cylindrical for pads, and round with wings for the toes.

Order No.	Package size	Packaging language
11 27 622	6 pads	D/INT

Medical Device

GEHWOL® Corn Plasters with salicylic acid - comfort  
Soften corns and callus so that they can be removed painlessly

Product benefits:

- also for the treatment of soft corns between the toes

Order No.	Package size	Packaging language

# GERLAVIT® / GERLASAN®

# Beyond the foot – the body care of Gerlach

---

The core competence of the company lies in foot care. This comprehensive knowledge, which has been built through research over years, can be transferred to other areas of the body care. With the brands Gerlavit and Gerlasan, Eduard Gerlach GmbH offers further quality products that go beyond foot care.

Solutions for intelligent foot care

# GERLACH TECHNIK - for your professional foot care needs

---

The GERLACH TECHNIK brand was created at the end of the 60s in response to the expanding foot care service market. Since this time, the technology products have been continuously improved and expanded into a complete product range. Today's product range includes foot care devices with suction or spray technology, patient chairs, ergonomic work chairs, work cabinets, autoclaves, disinfection equipment and other hygiene equipment. Aside from large equipment, there are also hand instruments made from stainless steel, and rotating instruments made with materials such as stainless steel, diamond or ceramics. For nail correction, we offer brace systems that were jointly developed with podologists. Consumables for practice hygiene and medical wound care are also covered by our product range.

---

## PRACTICE EQUIPMENT

---

Practice equipment by GERLACH TECHNIK conveys a sense of expertise and creates an atmosphere of well-being

---

Aside from competent, customized advice, your practice equipment plays an important role in determining your professional appearance. The Gerlach sales representative will gladly answer your questions regarding practice equipment, and work with you to find a solution that meets your needs and wishes. The portfolio includes foot care equipment, cabinets and entire treatment units. In order to work ergonomically, choose a work chair that fits you, and select a comfortable patient chair for your customers. With GERLACH TECHNIK products, you invest in practice equipment that communicates professionalism while simultaneously creating an atmosphere of well-being for you and your customers.

# Foot care on the go at home visits

When mobile foot care is part of your practice's everyday work, there's no need to abandon your accustomed work processes and equipment. GERLACH TECHNIK cases make it easy to bring your foot care equipment, and provide plenty of storage space for instruments and supplies. An LED lamp can be mounted on the case. With equipment safely stored for transport and instruments and supplies in excellent order, you can start your foot care tour fully equipped and work flexibly on the go.

---

## HYGIENE

---

# Hygiene for trust and safety

---

Certain other aspects play an important role in hygienic foot care alongside current regulations, laws, recommendations and guidelines: namely, your equipment and supplies. High material quality and detailed workmanship significantly affect hygiene success. Hygiene measures require equipment and suitable products. From sterilization equipment to cleaning and disinfection automats and disinfectants ranging to personal protective equipment, our product range covers everything you need to practice hygiene which creates a sense of trust and safety.

---

## WOUND CARE

---

# Be ready for First Aid

---

Only specifically qualified expert personnel is permitted to provide wound care as directed by a doctor. Wound care is a form of medical care and is therefore not within the expertise of foot specialists. You are, however, obligated to provide First Aid in acute cases. You should also provide this by e.g. covering the wound area with a sterile wound covering after disinfecting the skin, and applying a pressure relief bandage. For this reason, you should always keep a supply of wound care materials at hand.

## INSTRUMENTS

---

# Trust requires top quality

---

Instruments are a fixed part of your work equipment. Drills, grinders and polishers are needed to work on callus and nails. Our product range offers all sizes, shapes and diameters required for working on large areas or specific points, in a variety of materials. We also offer a wide selection of forceps, shears, scalpels, blades, files and other specialized instruments for your work. GERLACH TECHNIK quality instruments stand out with high-quality craftsmanship and a long service life. They are safe and comfortable to handle.

---

## BRACE TECHNOLOGY

---

# For working on nails

---

Regardless of whether the nails are ingrown or rolled, nail correction systems provide rapid, lasting relief for the affected persons. Find out which brace or nail correction technique is best for your customers. Nail improvements are achievable in only a few days with the Naspan® Platinum correction system. You can also work with the VHO brace or B/S brace technique.

# Configuration suggestions and advertising material

---

The strong brands of Gerlach want to be seen in your foot care practice. That is why we have put together configuration suggestions for you according to the size of your foot care practice. We are happy if you give importance to the topic of foot care in your pharmacy. Because it is our feet that safely carry us through life. We support the placement and visibility of the products on the shelf with comprehensive materials for sales promotion and consulting.

International versions of advertising material on request.

# Sales aids

# Flexible ware presentation

Our product range consists of far more than 50 individual products. The right alternatives for each customer can always be found here.

To protect against cold feet in winter, they might consist of special heating products with paprika or ginger. To keep the feet from going into hibernation in the first place, it's advisable to shift the focus to proven enlivening products as early as the fall, and provide refreshment with plenty of moisture. Those who want to combine a groomed experience with wellness and sensual scents can find the right choice in the Soft Feet program.

The high-quality acrylic displays from Gerlach really bring out the best in your product offers. You can use different motifs on them; a display sign always displays two motifs, one on the front and one on the back.

So just turn it around!

This makes for dynamic and flexible adjustments of your ware presentation to different moods and seasons.
